Majid Khan

Front-end Developer

I am a full stack developer specializing in HTML5, CSS, Tailwind, Bootstrap, and advanced JavaScript. I create dynamic, responsive web pages and am proficient in the MERN stack, with skills in React.js, Express.js, and MongoDB. I am dedicated to continuous learning and building efficient web applications.

WORK EXPERIENCE

Front End Developer
Ontrac

09/2024 - 10/2024   *Abu Dhabi, UAE*

OnTrac is a forward-thinking IT solutions provider, offering comprehensive and proactive technology management services. Specializing in real-time monitoring, preventative maintenance, and strategic IT planning, OnTrac aims to minimize downtime and maximize productivity for businesses. With a strong focus on security, cloud solutions, help desk support, and data backup, OnTrac delivers customized, reliable, and cost-effective IT solutions that align with the specific needs of its clients, ensuring seamless operations and peace of mind.

Achievements/Tasks
- The OnTrac website was developed using HTML5 and Tailwind CSS to create a responsive, modern, and user-friendly platform. The project highlights the effective use of these technologies to deliver a clean and efficient interface that enhances user experience. With intuitive navigation and optimized performance, the website successfully represents OnTrac's dedication to innovation and excellence in providing IT solutions. The site's design ensures easy access to information about services, promoting engagement and satisfaction among visitors.
